

# How Oils Are Manufactured

## Refined Oils

**REFINED OILS**  
 Little nutritional value.  
 Nutrients either altered or removed. Contains poisonous trans fatty acids, free radicals and other toxic substances.

## Omega Nutrition's Unrefined Organic Oils

Small batch cold pressing system – oxygen and light free environment using the exclusive **omegaflo**® or fresh pressed process

No further processing

No heat treatment of any kind

Packaged in opaque bottles flushed and sealed with inert gas

## FRESH OIL

with all nutrients intact.  
 No toxic substances.
